## Enhance the guest experience

The guest service operations by enabling guests to check in, encode a room key, check out — all without having to wait in line at the front desk.

Introducing Smart Hotel Kiosk, a self-service solution that integrates with both PMS, and EyeQ AI Technology

Simplify the check in and check out processes, elevate the guest experience and optimize staff productivity. More and more properties are reducing their overhead by implementing self-service options, and with the Kiosk, you can enhance the level of service without growing your staff.

## Better service. Better revenue

Help make travel more enjoyable by offering a fast and easy approach to efficient service

- The Kiosk allows guests to pay the bill with various payment method
- Special messages, vouchers and printed instructions can be provided to guests
- By automating check in and check out, employees have more time to concentrate on providing the guest services
- Guests can also reprint room keys at any time during their stay, without having to wait in line at the front desk.

# Competitive Advantage in the Market

Self-checkin kiosks are not only delivering what guests expect from your property, they're also exceeding the technology expectations of modern operators. With the fast pace of hi-tech, possessing a kiosk with all functions replaced with receptionists helps your hotel become smart and convenient.

## Effortless Functionality. Optimal Efficiency.

Self check-in check-out, folios on-line, instant room keys and self- service hotel kiosk solutions for continued contact with your guests. Kiosk's self-service technology helps deliver the many benefits you need.

**Automate Check In and Check Out :** Help reduce lines and offer additional services to guests.

**Manage Overhead :** Optimize staff levels and productivity

**Global Deployment Flexibility:** Support multiple languages with ease

## The Kiosk module is designed to:

Increase the quality of your service

Improve employee productivity

Reduce cost

Provide guests a memorable, experience.

**To optimize your front desk operations and save on overhead costs, get more details from your EyeQ representative, or call us at 0936 422 340**
